

We are updating our enrollment process to go digital! Using our new online platform by Powerschool, we are able to eliminate paper in favor of an easy to use and mobile friendly process. Now, to enroll a new student into ACPS, parents and guardians can use the link below to register. This will capture all the information we need to begin the registration process. A few things to note:

- To register, you must make an account with our platform. This will require an email address. If you do not have an email address, a free one can be made using one of the services in the links below, or any alternative email service.
 - Gmail: <https://accounts.google.com/signin>
 - Yahoo: <https://login.yahoo.com/account/create>
 - Outlook: <https://signup.live.com/?lic=1>
- Once submitted, our team will review the information submitted for accuracy and completion. The registration process is not complete until the parent or guardian receives confirmation. We will reach back out if any information is missing or needs clarification.

We are looking forward to the new opportunities this platform presents our district. This will streamline the process and allow for us to better serve students and families as they begin their journey with us at ACPS.
