Jeffrey S. Blank

Symptom Screening for Students

This symptom screening should accompany a daily temperature check.

1. Since last at school, has your child had any of the following symptoms?

- Fever of 100.4 or higher
- Sore throat
- Cough
- Difficulty Breathing
- Diarrhea or Vomiting
- New onset of severe headache (especially with fever)
- New loss of taste or smell

2. Since last at school, is your child waiting for a COVID-19 test result, been diagnosed with COVID-19, or been instructed by any health care provider or the health department to isolate or quarantine?

If you answered **YES** to either of the questions above, your child cannot attend school, and you must contact your child's school to speak with the school nurse for further guidance.

Revised 8/8/22
