Westmar Middle School
6th-grade Assignments for March 16- March 27
All students should attempt to complete the following assignments to the best of their ability. Students will not be penalized for completion or non-completion of any work sent home during the two-week period. This is supplemental to help students stay connected to their learning. Students are highly encouraged to complete the work. These are assignments that potential will become assigned and graded. Stay ahead of the game!

Mrs. Ritchie - ELA
Students are to finish anything they still have to complete from “Assignment 1 and/or Assignment 2” packets from this past week. Students are to complete both “Assignment 3 & Assignment 4” packets which consist of reading portions of the novel, Moon Over Manifest and respond to comprehension questions as well as information reviewing “figurative language” and “elements of a story” which were distributed in class on March 13, 2020.

Mrs. Rawlings - Math
Students are to complete the calculator and non-calculator packets distributed in class on March 13, 2020.

Mr. Biser - Social Studies
Students are to complete the Ancient Rome packets that were given out in class on March 13, 2020. These assignments are also available on Google Classroom with instructions.

Mrs. Jose - Science
Students are to complete a take-home test on weather, two Discovery Education interactives called Exploring Regional Climates and About Climates. They also are to work on a packet with worksheets on climates. They have been assigned a textbook called The Air Around You.
