To the extent practical, Northeast will provide full opportunities for parents with limited English proficiency and parents with disabilities. Northeast will also provide other reasonable support for parental involvement activities as parents may request.

Parents at Northeast Elementary are invited to participate as equal partners in educating our students by:

- Joining the school improvement team or the partnership action team.
- Providing input at meetings or by contacting the school principal regarding: the parent/family engagement plan, the school improvement plan, the spending of Title I funds, parent/school compact, etc.
- Attending annual Title I meetings to gain information about the parent's right to know and ways to be involved.
- Volunteering for classroom and school activities such as: 5th grade outdoor school, guest reader program, etc.
- Attending parent trainings and workshops to support student achievement.

A form is available on the ACPS homepage for parents to report alleged bullying, harassment, or intimidation. You may contact the school for additional information or assistance.
