

The Board of Education of Allegany County recognizes the need to comply with Federal Regulations relating to Chapter I of the Hawkins-Stafford Improvement Act, especially with regard to comparability of services to schools.

The Board of Education is in compliance with those regulations through:

1. A district-wide salary scale which is used in compensating all employees.
2. A procedure that utilizes pupil enrollment to assign teachers, administrators and resource personnel (includes art, physical education, music, etc.)
3. A procedure utilizing a per pupil allocation for the distribution of funds used in the purchasing of instructional materials, which includes textbooks and other student-related materials.
